

Attendance > Entry

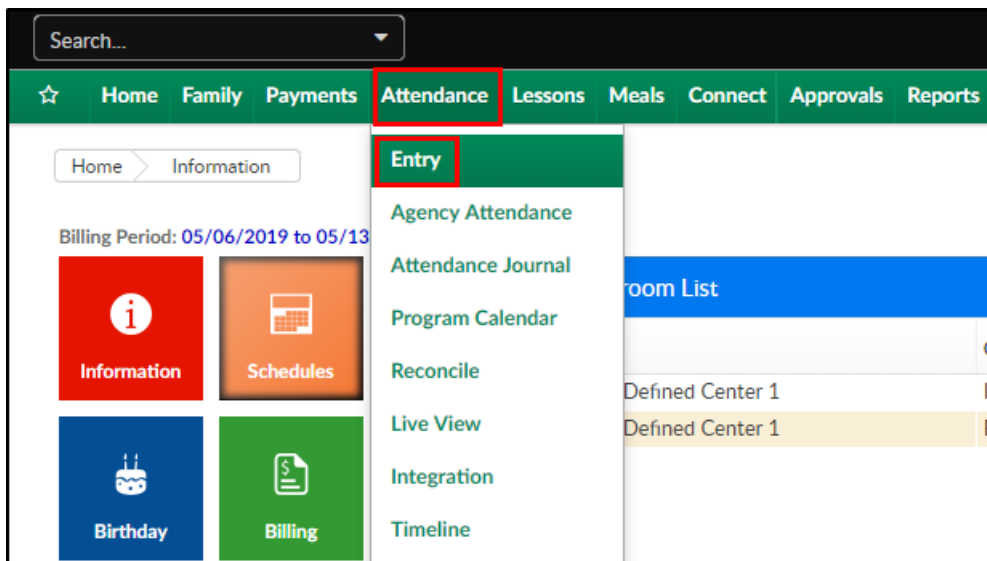

Last Modified on 06/30/2020 8:45 am EDT

The Attendance > Entry screen allows users to check students or staff in, edit attendance records, and review historical check-ins/outs by day.

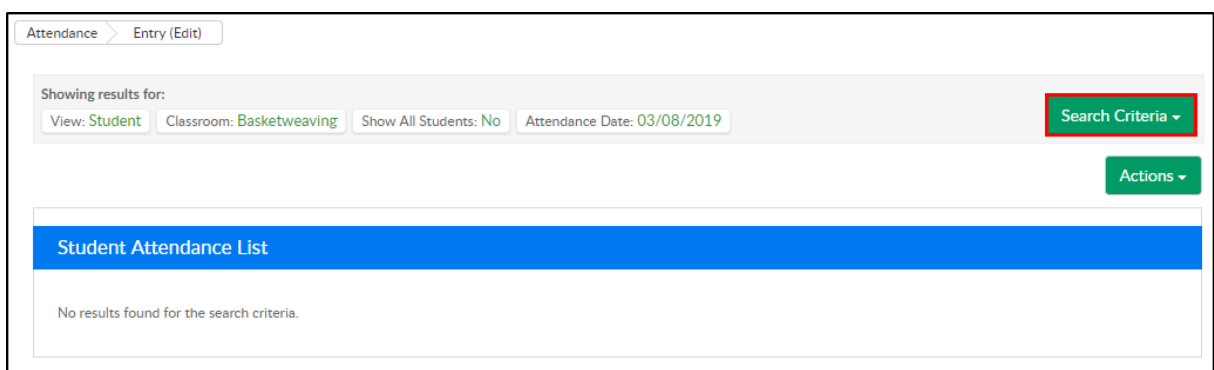

Edit/View Attendance

To take, edit, or view attendance, follow the steps below:

1. Click Attendance, then select Entry

2. Click the Search Criteria button

3. Select the necessary search criteria

The screenshot shows a search criteria form for student attendance. At the top left is a blue 'Search Criteria' button with a magnifying glass icon. To its right are 'View' options: a selected 'Student' radio button and an unselected 'Teacher' radio button. Below these are several input fields: 'Semester' with a building icon and a dropdown arrow; 'Category' with a folder icon and a dropdown arrow; 'Student ID' with a person icon and a text input field; 'Attendance Date' with a calendar icon and a text input field containing '03/08/2019'. To the right of these fields is a 'Classroom' dropdown menu showing 'Show All' with a document icon and a dropdown arrow. Below the 'Classroom' menu are two radio buttons for 'Show All Students': 'No' (selected) and 'Yes' (unselected). Below that is a checkbox for 'Include Students With Same Rate Category'. A green 'View' button is located at the bottom right of the form.

- Select to view Students or Teachers
- Semester - choose a semester from the drop-down
- Category - select a category to pull all students within a category, not just a program
- Classroom - select a specific room from the drop-down
- Student ID - enter a student ID to pull just one student's attendance detail for the selected day
- Include Students With Same Rate Category - see all students within a [rate category](#). The default for this option can be changed in the [System Config > Extended](#) screen
- Attendance Date - select a date to view/edit attendance

4. Click View

5. A list of students will display in the Student Attendance List. The next step will depend on if the user is in Normal Mode or Edit Mode, see section below

Normal/Edit Mode

The system offers different methods for administrators to record attendance for the center. To switch between attendance modes select the Actions drop-down menu, then select the "Switch To" option.

- **Normal Mode** allows admins to check a student in/out of a center in real time; a past time cannot be entered. This option is similar to using the [InSite Provider application](#) to check a student in/out

Staff Attendance

If attempting to add/edit staff attendance for a previous day, and the following error message is received, there is a setting on the [System Config > Extended](#) screen that determines whether or not staff can add/edit time in the past.

Teacher Attendance List				
Teacher	Check-In	Check-Out	Code / Job Category / Classroom	Total Units
<input checked="" type="checkbox"/> . Employee ID:	7 : 00 AM ▼	<input type="text"/> : <input type="text"/> ▼	NORM ▼ -- ▼ -- ▼	0 Units
<div style="background-color: #f08080; padding: 5px;"> Error Sorry, Staff Check-in not allowed prior to the current date for </div>				

The setting that determines this ability is: Allow Editing Prior to Current Date

- Yes - administrators are able to add/edit check in/out times for staff members any day

- No - administrators can only edit/add check in/out times for staff members on the current day, not a day in the past

Read Only/Edit for Staff Attendance

Activity ID 1690 on the [Setup Roles](#) screen determines if administrators are able to edit attendance times for teachers.

- If Read Only is selected:
