

System Config > Report

Last Modified on 10/22/2018 9:50 am EDT

The System Config > Report screen allows administrators to choose which reports will be available within the system for all users.

1. Select Setup from the menu, click System Config. Then select the Report option

2. On the Report List, select Yes for the report to be available for all users or No to turn the report off, then click Save
