

# Texting Integration Information

Last Modified on 09/14/2023 3:09 pm EDT

The Text Message screen is where API information can be added for texting integration. To enable text messaging with parents, you must contact [Twilio.com](https://www.twilio.com) and request the following information:

- Vendor Name
- API Key
- API Secret
- Short Code (if applicable)
- Phone Number
- Where the messages will be sent from (using a short code or a phone number)

\*Please Note: There may be fees involved when using Twilio, but these fees are from the vendor and not Procure.

Once the above information is gathered from Twilio, [click here](#) to set it up.

For instructions on sending a text message, [click here](#).
