

Parent Portal - Parent Managed Tip Sheet

Last Modified on 03/14/2019 10:08 am EDT

There are two phases that a parent/guardian must go through during the registration process for a Parent Managed program:

1. Registration - this is the first step in the process, which includes registering for the program
2. Selecting Days - step two is selecting days for the student(s) to attend. This step must be completed after registration has been approved
