

Release Notes REL_FEB_24_2022

Last Modified on 02/22/2022 1:49 pm EST

The following features and enhancements will be available on DCW/SCW on February 25, 2022.

Enhancements

The following enhancements have been made to current features:

- Added a "Child Status" filter to the search criteria on the Payments > Payments/Adjustments > Adjustments tab. [DCW-2781]
- Added payment type to the 'Specific Charge/Credit Summary One Sheet Report'. [DCW-2780]
- The system will now look up the payment status in TE prior to marking it incomplete due to transaction timeout or connection lost. [DCW-3605]
- Updated error messages on the Reports > General > Add Fee screen to display what field is missing. [DCW-3259]
- Retry logic to enhance the TE/DCW integration preventing issues due to lost internet connection. [DCW- 3609, 3613, 3615, 3922]

Miscellaneous Fixes

The following issues have been resolved:

- Resolved an issue where some centers were unable to pull the TE Balancing report. [DCW-4086]
- Fixed an issue where some users were receiving the following error when attempting to log in: "HTTP Status 500 - Internal Server Error". [DCW-4143]
- Fixed an issue where some parents were unable to save autopay when the parent center merchant ID was different from the family center merchant ID. [DCW-4077]
- Fixed an issue where some customers were receiving "Unable to approve registration" from the Registration > Approvals screen. [DCW-4083]

Internal Documentation

**The following task is for internal documentation only.*

- Pendo integration. [DCW-4055, 4056]
- Fixed a display issue on the Setup > Rates screen when under a Business Level. [DCW-4104]
- GreatPlains SQL connection exception. [DCW-4074]
- Validation of override discounts for transactional billing statement service clients. [DCW-4133]
- Added Clone Center button for internal roles. [DCW-4082]

- Research TE transactions. [DCW-4078]
 - Investigate dynamic log4j logging levels. [DCW-3624]
 - Enhance logging in the login logic in the Connect application. [DCW-4073]
 - Hibernate Session Manager platform improvement. [DCW-3417]
 - Fixed an issue with internal email alerts received when batch jobs complete. [DCW-3051]
-
