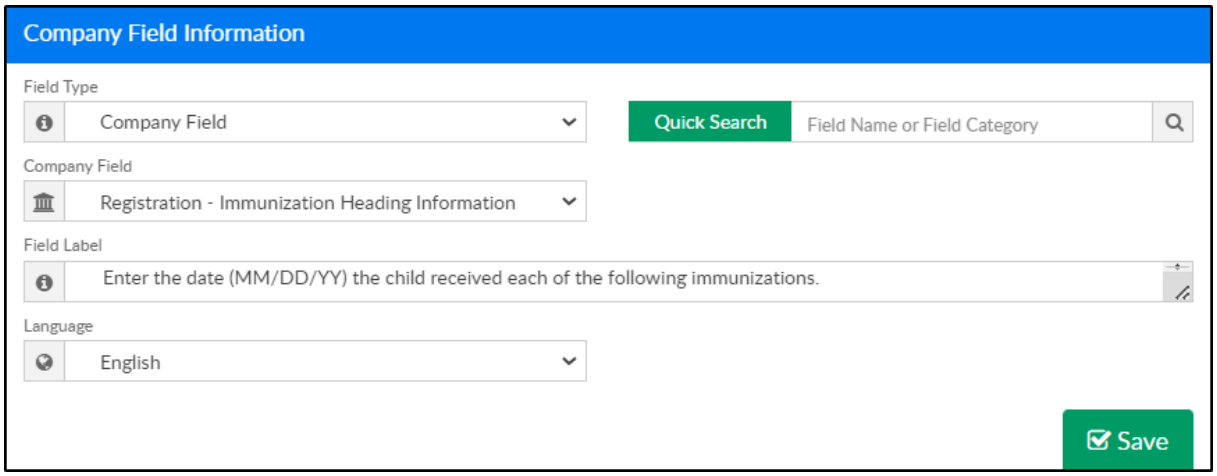
The following features and enhancements will be available on DCW/SCW on December 9, 2022.

New Features & Enhancements

- Added the ability to display details above the Immunization chart on registration. This can be added by navigating to System Config > Data Fields. [DCW-5064]



- Enhancements have been made to the current password requirements. Your new password must be between 12 and 32 characters in length AND must include 3 of the following elements [DCW-4744, DCW-4745, DCW-4746]:
  - At least one uppercase letter
  - At least one lowercase letter
  - At least one number
  - At least one special character
- The following enhancements have been made to the registration setting "School Attending". [DCW-5147, DCW-5148]
  - If a center or "N/A" is selected from the "School Attending" drop-down, the "If Attending Other School" field becomes non-editable.
  - If "Other" is selected from the "School Attending" drop-down, the "If Attending Other School" field becomes editable.
  - If the "School Attending" field is hidden on the registration form, then "If Attending Other School" is hidden also.
  - In the Portal > Personal tile, "Other" has been added to the "School Attending" drop-down list.
