Release Notes REL_JUN_29_2023

The following features and enhancements will be available on SCW on June 30, 2023.

[SchoolCare Works + Engagement Updates](#).

New Features & Enhancements

- In order to further simplify Registration setup, room display options are being consolidated. All current display options will be migrated to the new options. The following changes have been made on the Setup > System Config > Registration screen[DCW-4457]:
  - "Display only programs created at family center?" and "Display programs that allow registration access center for family center only" fields will be removed.
  - Added a new field: "Display rooms for registration based on:" and will have the following options:
    - **All Rooms at All Centers:** families will enter the registration page at the business Level, then select the center to view rooms.
    - **Family Center Rooms with access to other Centers**: families will enter their center's registration page directly, but will have the ability to view other centers.
    - **Family Center Only**: families will only see rooms based on their Family Center. The Family Center is determined by the "Center" field on the Family tab of the family record.
- Added Brand, Division, and District columns to the Pre-Bill Report. **Please note**: these columns will only display if the fields are set up at the Business or Center Level. [DCW-5910]

Miscellaneous Fixes

- Fixed an issue where some students were grayed out on the Weekly Sign In Version 6 report. [DCW-5862]
